DATASHEET

Elevate Rooms Video Conference Room Solution

ENHANCE YOUR MEETING COLLABORATION, ANYTIME, ANYWHERE.

With the ever-changing work environment, Elevate Rooms helps to bridge the gap between in-office and remote meeting attendees for businesses of all sizes.

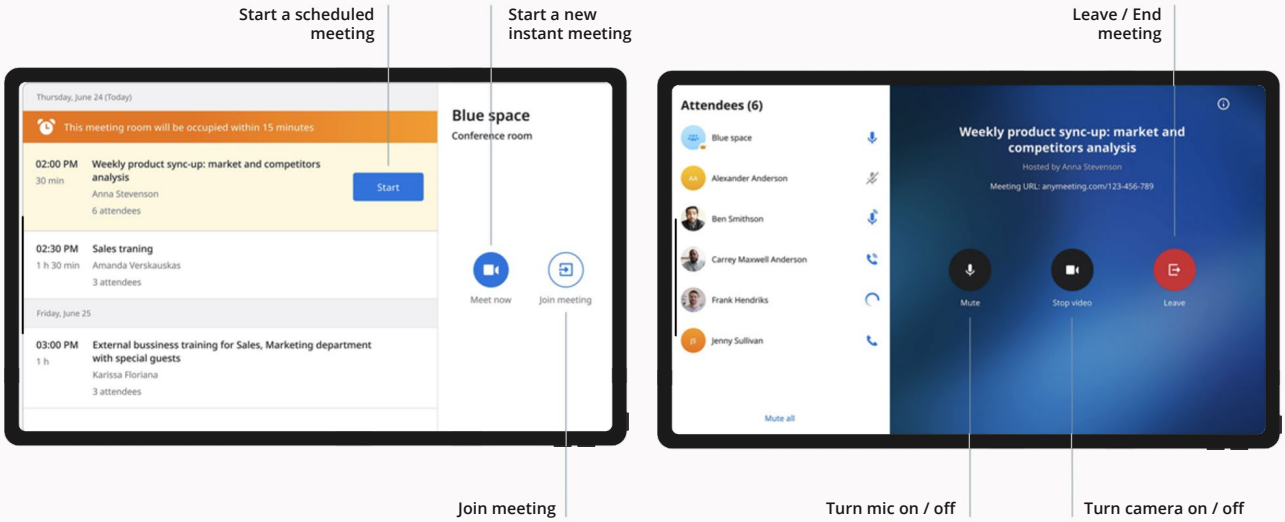
Keep your workforce connected and extend the powerful collaboration capabilities of Elevate to any conference room. Elevate Rooms is built to deliver the simplicity of Elevate meetings through a consistent and familiar user experience from desktop to conference room. Elevate Rooms works with existing audio and video equipment and only requires a small PC and controller tablet, all of which are available off-the-shelf.

Elevate Rooms is fully integrated with Elevate

This functionality brings unrivaled simplicity for end users and IT managers. Users can:

- Easily reserve a conference room and simultaneously schedule a video conference for both in-office and remote workers
- Join any scheduled conference meeting from the tablet in the conference room with one tap
- Start an unscheduled meeting in a conference room and invite others who are remote or in office

A TABLET IN THE CONFERENCE ROOM CONTROLS THE MEETING FROM THE ROOM FOR IN-OFFICE PARTICIPANTS.



FEATURES AND BENEFITS OF ELEVATE ROOMS

EXISTING HARDWARE

Utilize equipment you may already have. Elevate Rooms works with most displays, projectors, speakers and microphones. An Android tablet and meeting room PC control the experience.

NUMBER OF PARTICIPANTS

Allows up to 100 or 200 attendees in a Elevate meeting depending on the Elevate license.

ATTENDEE FUNCTIONALITY

Share meeting control by starting a meeting on behalf of the meeting organizer from the controller tablet in the room. From a laptop, users can: share content, take notes, record sessions, and chat throughout the live session.

SIMPLICITY

Elevate Rooms delivers the simplicity of Elevate meetings through a consistent and familiar user experience from desktop to conference room.

MEETINGS FROM ANYWHERE

Connect with coworkers while in the office or remote from where ever, when ever.

INCREASED COLLABORATION

Elevate Rooms brings people together, increasing productivity and collaboration between employees near and far.

REQUIRED HARDWARE

- Android Tablet (Android, 8”+ Display, 1280x800 min. screen resolution)
- Wi-Fi and internet connection
- PC/NUC for Room (with sleep disabled)
- Camera (1080p recommended)
